Work Experience

THCO [website]( )
Frontend Developer
February 2024 – August

- Collaborated with a team consisting of a Project Manager, UI/UX Designer, and Backend Developer to build a functional, well-optimized lead generation website.

- Designed and developed a complete web application from scratch, including both the landing page and admin dashboard, showcasing full-stack development capabilities

- Implemented a robust authentication system, integrating Google and Microsoft OAuth for seamless user email account connection.

- Engineered a powerful admin dashboard with advanced functionality, improving workflow efficiency and data management capabilities.

- Successfully consumed and integrated available APIs, demonstrating proficiency in backend integration and data handling with Next.js server actions.

- Utilized modern web technologies and best practices to ensure a scalable, maintainable, and performance-optimized application architecture.

PICKRIDERS [website](#)
Frontend Developer
Aug 2023 – Present

- Created a complete web application dashboard, building both the main public website and the internal management system, showcasing skills in frontend.

- Created a stunning UI using Sass/SCSS

Lampnets Technologies, Lagos, Nigeria
Frontend Developer (Intern) Remote
August 2023 – March 2024

- Integrated a logistic website with a third-party REST API for real-time data communication using JavaScript async functions.

- Collaborated with backend developers to build an admin delivery platform featuring chat rooms.

- Optimized project performance, reducing loading times using React and TypeScript.

X3-Code Tech Company, Enugu, Nigeria [Demo site](#)
Frontend Developer On-site
August 2022 – January 2023

- Learned and implemented React.js in building the company's website in collaboration with a UI/UX designer.

- Played a key role in transforming design concepts into a fully functional and responsive website.

Projects

SyncHub

- Developed a responsive Synchub platform similar to Linktree using Next.js, Tailwind CSS, and Convex DB.
- Incorporated theme modes to enhance user experience.
- View Project

Metrix Dashboard

- Created a stunning, responsive dashboard using Next.js, Tailwind CSS, styled-components, and Zustand.
- Added theme modes, ensuring a seamless and responsive design.
- View Project

Specter Store

- Developed an e-commerce platform using HTML, Tailwind CSS, Next.js, RTK, and Tanstack Query.
- Implemented advanced filtering for seamless content sorting.
- View Project

Summary

Results-driven Frontend Developer with over 3 years of experience in creating dynamic, user-friendly, and visually engaging websites and applications. Expertise in HTML, CSS, JavaScript, and advanced frameworks such as React and Next.js. Proven track record of enhancing user experiences and optimizing web performance. Committed to continuous professional growth and adept at leveraging the latest technologies to deliver cutting-edge solutions. Seeking to contribute my skills and knowledge to a forward-thinking company where I can grow professionally and drive innovation in web development.

Education

Self-Taught Frontend Developer (2022 – Present)

- Undertook a self-directed learning journey to master frontend development.

- Engaged in hands-on learning through online courses, tutorials, and practical projects, gaining proficiency in HTML, CSS, JavaScript, and modern frameworks.

Certifications

- **JavaScript Algorithms and Data Structures** - FreeCodeCamp
- **Responsive Web Design Certification** - FreeCodeCamp
